STUDENT

I am a 4th year under-graduate at Birla Institute of Technology, Mesra, Ranchi. My branch is Information Technology. My interest lies in Competitive Programming, Data Structure and Algorithms and Full Stack web development. Through hands-on projects and coursework, I've gained expertise in algorithms, data structures, and development. Eager to contribute my skills to real-world applications.

EDUCATION

- Birla Institute of Technology** Ranchi, Jharkhand
Bachelor of Technology - Information Technology; GPA: 8.75 2020 - 2024
- Delhi Public School** Bokaro, Jharkhand
12th CBSE PCM; Percentage: 94% April 2018 - March 2020

PROJECTS

- Hostel Attendance Management System** June 2023 - July 2023
ReactJs, NodeJs, ExpressJs, MongoDB, Bootstrap Source Code
 - Created a hostel application management web app to track students where they are, and note the attendance of students according to room No.
 - Generate reports and visualizations for insights, prioritize security and user roles, and iterate based on feedback.
- Personal Portfolio Website** May 2022 - June 2022
ReactJs, Html, Css, Javascript, Bootstrap Link
 - I've crafted a personal portfolio website to showcase my skills and achievements.
 - Creating a user-friendly interface with easy navigation, responsive design, and an intuitive user experience.
- Sorting Sorting Visualizer** April 2022 - May 2022
Html, Css, Javascript Link
 - A sorting visualizer using HTML, CSS, and JavaScript is a web application that displays the step-by-step process of sorting algorithms on an array of elements.
 - It allows users to observe and comprehend how different sorting methods rearrange the elements, offering a visual representation of the sorting process in real-time.
 - It allows users to observe and comprehend how different sorting methods rearrange the elements, offering a visual representation of the sorting process in real-time.

SKILLS SUMMARY

- Languages:** C, C++, Python
- Frameworks and Tools:** Git, Html, Css, Javascript, ReactJs, Bootstrap
- Platforms:** Visual Studio Code, Github
- Soft Skills:** Leadership, Good Learner, Problem Solving, Team Work, Time Management

ACHIEVEMENTS

- Top 10% in leetcode with maximum rating 1720.
- Pupil on Codeforces with maximum Rating 1286 and 3 star in codechef.
- Solved 1000+ questions on different Platform.

COURSEWORK

- Data Structures and Algorithms
- Object Oriented Programming
- Operating Systems
- Database Management Systems
- Computer Programmings
